

**Solicitation # 693JF717Q00007**  
**Sonar Fleet Sails**  
**Questions & Responses**

1. **Question:** According to the quote sheets, the 'Full *North Sonar* Sail sets' are required, is North Sonar the brand for these sails?

**Response:** North Sails, Inc. is the manufacturer. “Sonar” is the type of boat for which the sails are being made.

2. **Question:** Is this an indication that the sails must be manufactured by North Sails (or would other manufacturers such as Quantum suffice)?

**Response:** North Sails, Doyle Sailmakers or Quantum Sails are the only manufactures of sails that will suffice for main activity with the Academy boats and are legal for racing.
